

## Chomerics SOFT-SHIELD 5000® Obsolescence Notification

Thank you for your continued support and confidence in JHC Specialised Solutions. In addressing ongoing demand, we'd like to inform you of a key raw material discontinuation for Chomerics SOFT-SHIELD® 5000 products.

Despite efforts in evaluating other potential materials, Chomerics has been unsuccessful in formulating a substitute product with equivalent performance properties and will **discontinue the SOFT-SHIELD® 5000 product line.**

JHC will continue to supply stock material of the existing series, but once these volumes are exhausted, suitable substitutes will need to be considered.

There are a few possible replacements, but the following series will typically support most applications;

### SOFT-SHIELD 3500 Plated-Fabric Wrapped Foam

Product data sheets - <http://www.jhcss.com.au/products-1/emi-shielding/fabric-over-foam-gasket-148053906>

For any questions please contact your JHC representative.

You can also call our Head Office on +61 2 9531 7905 or email [info@jhcss.com.au](mailto:info@jhcss.com.au)

Kind Regards,

Wayne Druery
